

How to Delete Device Categories

This guide demonstrates how to delete a device category page.

Written By: iRobot

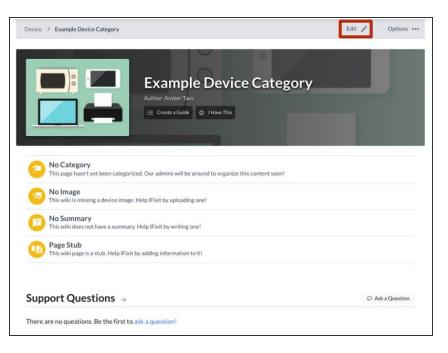

INTRODUCTION

This guide demonstrates how to delete a device category page.

Note: Before doing this, make sure there are no guides listed in the category. If there are guides listed under the category, either delete them or change the category under which these guides are listed.

Step 1 — How to Delete Device Categories

- Open the device category page you'd like to delete.
- Click on Edit at the top right of the page.

Step 2

Wiki Info			
Wiki Info INFO VALUE			

- Click on the **Delete Device** button in the bottom-left of the page, directly below the Attached Documents and Wiki Info sections.
- A pop-up will appear asking you to confirm that you really want to delete the page.
 - This is a permanent action. Do not delete a device page unless you're absolutely sure you want to. When in doubt, post on <u>Meta</u> and ask our community moderators and admin for advice.
